

Recent Updates:

- Marine's Hall demolition decision - The decision on what to do with the Marine Hall was made on 23 February 2021. There is still a chance for an appeal, however the appeal would have to go to the Environment Court and would be based on finding fault in the proceedings rather than new facts.
- 
- Roving Crews, ingress and infiltration - Titahi Bay's pipe network will be inspected in the coming months as part of a project "Knowing your Pipes", to improve water quality in the region. \$250k has come from Porirua City Council (as part of last year's Annual Plan) and is led by Wellington Water. Homeowners will receive letters shortly outlining the project, which includes low-risk smoke testing and dye tracing. More information can be found here www.wellingtonwater.co.nz/knowing-your-pipes

If there are any costs to fix faults on a private property, there will be the ability to apply for assistance to spread the cost via Porirua City Council rates from 1 July 2021.
